

February 11th 2021

Asia Pacific Association of Medical Toxicology Election – Board Members and The President Elect

[Nomination for President-Elect 2021-2022](#)

[Nomination for new Board Members 2021-2024](#)

Dear Members of APAMT,

We hope that everyone is doing well despite the current Covid-19 outbreak. As there was no AGM in 2020, we are now writing to inform you that the following Board Members have completed their term on 31 December 2020 after having served their four-years appointment. These Board Members are:

1. **Dr. Michael Eddleston**
2. **Dr. Fei Lung Lau, Rick**
3. **Dr. Suchai Suteparuk**

We thank them for their valuable service and contribution and look forward to having them as active members of the society who will continue to serve and contribute to the progress of APAMT.

We are now calling for an election for the appointment of a President- Elect (for FY2021/22) and three new Board Members. The call for nomination closes on **12 March 2021**.

Current APAMT members in good financial standing (i.e. members who paid their membership for FY2020/2021) may propose a fellow member for consideration. The nominated member should be a current APAMT member who is actively involved in the toxicological related work in his/her area of practice and in APAMT. A balloting process will take place after the nomination and this will decide the final selected candidate. The elected candidate will take up the appointment in 2021 for a 4-year term period (Board Members) and a 6-year term period (President-Elect).

The elected Board Members and President-Elect are required to play an active role towards the growth and well-being of the association. It is important that the proposed candidates are active members and possess the vision and commitment to steer APAMT to new heights. It is also important to note that the constitution ensures that representation on the APAMT Executive Board has a degree of geographical balance.

The current Board Members of APAMT are as follows:

President: Professor Ashish Bhalla

Address: Department of Internal Medicine, Faculty of Medicine, Post Graduate Institute of medical education and research, Chandigarh. India **Email:** bhalla.chd@gmail.com

Asia Pacific Association of Medical Toxicology

Our goal is to promote chemical safety, poison control and treatment within the Asia Pacific region.

Since 1989
